Three Men Injured in Boiler Explosion at Orkin Brothers Plant

at the Orkin Brothers' power plant, Seventeenth and Howard streets, this morning resulted in injuries to Edward Ryder, fireman's helper; George Adwers, chief engineer, and Edward Perry. Ryder was badly burned about the head,

breast and arms, while Adwers and Perry were no so seriously injured. At the time the tube gave way the

steam pressure was twenty-five pounds below the usual amount carried and there is every indication that it was what is

plosion." As soon as the tube emitted the steam and water it contained upon the fire the doors were blown open and it was this blast that caught Ryder, who was then firing. He crawled nto the engine room and was there found by some of his fellow workers a few moments later. He was taken to the Wise Memorial hospital and given medical attention.

The bollers had been officially inspecied two weeks ago and found to be

HALF CHARITY MONEY GOES FOR EXPENSES

CHICAGO, May 14.-About 53 per cent of the alms collected by the United Charities are used to pay expenses, it was developed yesterday at the hearing of the itable Institutions.

Superintendent Eugene T. Lies of the organization testified that 47.3 per cent of the money received was actually paid out in relieving distress. Mr. Lies said he received a salary of \$5,000 a year.

"How is it that the Protestant Episcopal Missionary society collects every tugging at the end of the line. year at a cost of 7 per cent while it costs you 53 per cent?" asked Representative Curran, chairman of the committee.

"I know that the outsider would look on this per cent as large," said Mr. Lies, "but we are not at all extravagant." 'It seems to me you have a lot of high salaried officials who dole out advice instead of charity." asserted the legislator

According to Rev. Mr. Anderson, "the forces of evil recognize that the great cities of the country offer opportunity and there they are making their last stand against Christianity. The cities are the strategic points, and if the church ones its foothold in the city, then our God is simply a country God." He urged the Bantists of Omaha to "work out your policies together" and "co-operate in the fighting of the forces of evil." Three great changes, according to Rev.

END OF NATIONAL SHOPMEN GET CONVENTIONS

HARRISBURG Pa., May 13.-Secretary of State William J. Bryan addressed the Pennsylvania legislature this afternoon on the distinction between demot racy and aristocracy. He predicted that before another general election the presidential primary would be so general that there would be no need to hold national conventions and that presidential nominees would be named not by party leaders or bosses, but by the people. Speaking of platform pledges, Mr. Bryan said: "A man who violates a party platform and betrays his party and the people is a worse criminal than the man who embezzles money."

Speaking later at the banquet of the Central Democratic club, the secretary referring to the factional quarrel in the democratic party last fall, declared there is no need of a progressive party. "If the progressives stand for principle," said Mr. Bryan, "they will stand for the democratic party. If the progressives believe they could help the country they should help democracy and not stand aside and antagonize it. The democrats made their fight for progressive measures. Where were the progressives when the iemocratic party years ago made its fight against Wall street domination?" The tariff bill just passed by the house, he declared, the best in a generation.

CAUSE OF BIG **GRIST OF BILLS**

"In my opinion the flood of bills before the recent legislature was due to the case with which a man with a hobby could get a bill drafted through the aid of the reference bureau," said Senator J. A. Ollis, jr., who was in Omaha last night. We endeavored to fix this up in making the appropriation for maintenance of the bureau by providing that a fee of 15

per bill shall be charged in the future when the bureau draws a bill up. "If this doesn't stop the flow, we may have to provide that the bureau shall not draw up any bills whatever. The bureau undoubtedly does a good work in compiling information for legislative memhers, but it has evidently been a clearing house for the transference of hobbics into paper in a fushion that would not have
